Admission Status:

Reasons for not recommending the applicant:

**If provisional, select the applicable condition below:**

- A. An applicant who has not attained a baccalaureate degree from a fully accredited four year college or university but who has completed at least 80 percent of degree requirements in the requisite or closely related discipline at the time of application submission and meets all other graduate admission requirements. **Applicants in this category must submit official transcripts documenting receipt of the baccalaureate degree at least 30 days prior to the first date of enrollment in order to be eligible to register for graduate courses. International applicants must provide WES, AACRAO, or ECE evaluated transcripts 60 days prior to enrollment noting completion of the baccalaureate degree.**
- B. An applicant who has attained a baccalaureate degree from a fully accredited four-year college or university in the requisite or closely related discipline and meets all graduate admission requirements, but must show proficiency in select undergraduate or graduate courses; earning a grade of B or better during the first year of enrollment. **(Please list courses below).**
- C. A graduate of an accredited college or university who does not meet minimum graduate admission requirements and/or prescribed program requirements. Students in this category are required to meet the conditions noted in the admission offer or risk termination from their program.
